The World Today

Collaboration Needed

By DeWITT MACKENZIE BRITISH FIELD MARSHAL

peration has fallen short of makhe four-power government of many effective and that if there is failure in this program for con-trol of the Reich—"one of the boldest experiments in this history of international cooperation" — then the prospect of successful international cooperation between the great powers in a wider field will be much impaired".

The famous soldier chose Armistice day for this statement, which e made at a press conference in Berlin. It was in effect-and perhaps by purpose—a powerful sermon on the true meaning of this day of memories and rededication. That seaning is "cooperation"

The world thought it had learned the lesson of international cooper-ation in the last war. But the smoke of gun-powder had scarcely disap-peared before the second World war was on its way. Man learns slowly and by hard experience.

It's taking a lot to drive home the truth that the time when families or tribes or nations could isolate themselves is past, and that peace and security and progress are dependent on international collaboration. Indeed many countries are torn with internal conflict. Look at torn with internal conflict. Look at torn with internal conflict. Look at the following the following of the following of

torn with internal conflict. Look at poor old China, for instance. And yesterday Gen. De Gaulle appealed to his people to throw aside their "absurd quarrels" and unite in the interest of the country.

The world is full of trouble-spots, but the most serious from the international viewpoint is the lack of solidarity among the Big Three. It isn't that there are differences of viewpoint, for those are to be expected among the best of friends, but those differences are due in the main and perhaps altogether, due to inability to interpret the meaning of various developments. Perhaps those developments don't signal any ulterior motive at all, but they look had.

Gen. Arnold Cautions U.S. Be Prepared For Atomic Warfare In Space Ships

(By Associated Press)

WASHINGTON, Nov. 12.—Gen-eral Hap Arnold advises that atomic bomb warfare waged from interstellar space ships is "within the foresecable future."

The white-haired chief of Army Air Forces gave his third annual report today an eerie picture of onflict for which the United States hould be prepared. Said he:

War may descend upon us by housands of robots passing unan-lounced across our shorelines unless we act to prevent them."

And the way to do that is to be ready to strike at the source of attack with a strategic air force deivering "one of two atomic bombs," which should suffice for the job.

Tomorrow's Prediction

That method of bomb delivery is for today's style of war; tomorrow's, he said, will be like thia:
"We should be ready with a
weapon of the German V-2 rocket, having greatly improved range and precision, and launched from great listances. V-2 is ideally suited to deliver atomic explosives, because effective defense against it would prove extremely difficult.

"If defenses which can cope even with such a 3,000-mile-per-hour projectile are developed, we must be ready to launch such projec-tiles nearer the target, to give them shorter time of flight and make them harder to detect and destroy, We must be ready to launch them from unexpected directions.
"This can be done from true

space ships, capable of operating outside the earth's atmosphere. The design of such a ship is all but practicable today; research will Make certain that nowhere in the world are atomic

Armistice

Time and experience have reshaped the extrava

triumphs gained. We have earned a full in the fight- secret of its wartime uses. ing-an armistice-but we have yet to earn the peace and security for which we fought.

This time there are no illusions about a war to end wars. The lesson has been grim and hard, but it has been thorough-wars settle nothing except the fate of warriors. Armies are not nations, but only the Cornell on E. Sixth st. servants of nations. And mations themselves are the servants of ideas, good and bad.

No one thinks he knows on Armistice day in 1945 of Pittsburgh. what so many thought they knew on Armistice day in 1918—that the idea of conquest by intrigue, threats William Helman, of Green st. and, ultimately, naked force had been conquered. The armistice is uneasy.

Even in Japan where the semblance of triumph has been easier to believe than in Europe, it is hard to know what has been the net gain of the tremendous effort expended to crush an aggressor. There is uncertainty here and abroad. We cannot be sure that we have won what needed to be won.

But uncertainty itself may be good. It is the product of experience. As long as it is not allowed to become despair, ultimate victory always will be potential. We know that the harder part of the fight he visited Sunday with his sister, Mrs. Harry Lewis. to gain our ideals still lies ahead. The end of the war is the beginning of opportunity.

The Presidency At Issue

There was launched in the U. S. Senate last Tuesday the first full-size torpedo in the partisan battle by Mrs. Ernest Her at her home on Newgarden st. for the presidency in 1948. Senator Wiley of Wisconsin rose to deliver a prepared manuscript sharply Weingart of Salem have been granted a marriage critical of President Truman's policies, as revealed to license date. It was the first full-dress attack on Mr. Trufirst months in office is now a relic of wartime.

Putting the Atom Before the Cart

floundering, depending on the point of view, is that venture to its lack of substantial values and concepts. the only way to reassure governments that do not have the secret of their manufacture is to turn over a limited number of completed bombs to the United to discover that there is no wrest in peace. Nations organization, then call off all further production. Former Gov. Stassen specifies five bombs

Others are less specific; they propose a general inter- SIDE GLANCES national sharing of the weapon, without sharing the

secret of its manufacture. Published daily except Sunday by The Brush-Moore Newspaper, Inc., News Building, 624 East State St., Palem, Ohio, Entered at postoffice at Salem, Ohio, as second class matter under act of March 8, 1879.

There is not, as yet, any United Nations organization to act as trustee. Even if there were, it is not the to act as trustee. Even if there were, it is not the atomic bomb that is wanted so much as the secret not of manufacturing atomic bombs and the larger secret of releasing atomic evergy. It is abourd to believe that anything will check curiosity about the larger secret. The great danger is that militarists and politicians in their anxiety to keep control of a potent new weapon may block the logical development of a potent new source of energy. If the same upsidedown reasoning were applied to petroleum, for instance, or coal, or any of the other basic materials vital to war, their peacetime uses would be made to seem secondary to their military importance. The fact is that the most potent material on earth today is not uranium but petroleum, yet no one is proposing to turn it into a military monopoly.

There is not going to be any fool-proof way to keep the secret of manufacturing atomic bombs; there never has been a truly secret weapon in the long history of warfare. The only security against its gant emotionalism of the first Armistice day in 1918, violence will be to know about the whole secret of Twenty-seven years afterward, the joy released by the releasing atomic energy. The United States, it may end of World war I has changed to apprehension in appear by hindsight, had more need to widen the circle of information about atomic energy, in order The end of another war in Europe has brought to get a head start in its peacetime uses, then to worry more awareness of troubles ahead than the military about keeping the circle tight in order to protect the

Up To

efit that you will receive from the new tax law will show up in your first pay envelope or check for work done in 1846. It will look as though you had received a small pay raise. Actually it will represent a small decrease in the amount withheld for payment of federal in-

Suppose for instance, that you receive \$45 a week, and have a wife and two children whom you sup-port. This year your employer has been holding back 45 cents a week for Old Age Insurance and \$1.40 a week for the federal tax. Next year the Old Age Insurance is unchang-ed, but he will withhold only 50 cents for income tax. Your take-home pay will become \$44.05 a week, in lead of this warr \$12.15 instead of this year's \$43.15.

(In both cases this would be reduced by union dues checked off, hospital insurance premium, war bond allotment, or any other item you may voluntarily have author- least \$22 a week. With two depend- however, the tax withholding this zed the boss to deduct.)

DAMASCUS

of West Branch, Ia., are visiting his brother, A. L. Pemberton and

family and his mother, Mrs. Sarah

least \$22 a week. With two dependents, the tax witholding does not
dependents, your take-home pay
this year was \$39.25, with \$5.30
withheld for income tax. Next year
it will become \$40.45, because the
it will become \$40.45, because the
tax withholding is reduced to \$4.10

There are too many withholda week. New Schedule

Under the new tax, next year a man with a wife or any other one dependent will not have any tax withheld unless his pay is at The accompanying table

Affect are too many withholding tax tables in the law, and each is too extensive, too permit dependents, any understandable comparison of the old rates with the new all along the line.

In the accompanying table

On pay above \$200 a week, under the old law the with-holding for \$200 was increased by 22.5 per cent of the excess. Under the new law the withholding on \$200 is increased by only 19 per cent of the excess.

It will take a lot to serve Ohio Farmers

Although the war stopped the rapid upswing in telephone installations in Ohio Bell rural areas, it did not stop research and planning. This means there will be more and better telephone service for Ohio farmers in this postwar era.

While there are more rural telephones in service than at any previous time, studies indicate that more persons than ever in Ohio Bell territory will want telephones. Our plans are made to serve 30,000 new customers in this postwar period. This will require an outlay of approximately \$6,500,000, and is a part of the Bell System's \$100,000,000 program to extend and improve service in rural areas.

Among other things, the Ohio Bell program will require:

101,000 or 262 freight cars of poles. 130,000 or 70 freight cars of cross arms. 54,000 miles or 4,590 tons of steel wire.

The Ohio Bell Telephone Company is looking forward to the day when we can meet the increasing telephone needs of rural areas we serve promptly and fully.

Navy's Intricate T Machine Begins To Roll Toward Army

MIDDIES GEAR THEMSELVES IN **SEASON FINAL**

Prepping for All-Important Clash With Cadets On November 24

NEW YORK, Nov. 12.-Now that Navy's intricate "T" machine has begun to click, the Middies, Dec. 1 clash with all-conquering Army shapes up as a first rate championship contest.

The Midshipmen served notice on the Cadets they would be ready to roll in the Philadelphia fracas by the ease with which they bowled over a spunky Michigan club, 33-7, at Baltimore Saturday.

The Navy's harnessed power will be unleashed Saturday against poor little Wisconsin, beaten 28-14 by Northwestern. This Baltimore tilt is Navy's last prep before the "big

The Army after their awesome 48-0 walloping of Notre Dame which made them the first cadet corps in history to beat the Irish two straight, takes on potent Pennsylvania at Philadelphia. The Quakers, beaten only by Navy, showed they were the class of the east, not counting service teams, by knocking Columbia from the ranks of the unbeaten and untied teams, 32-7.

A third important eastern fray pits Holy Cross, only one of six major elevens left with unmarred records, against Temple Owls who were dropped from the all-conquer-ing ranks 27-0 by Penn State, Stanley Koslowski and his Holy Cross mates dumped the Coast Guard academy 39-6 Sunday.

Penn State Travels Penn State travels to Michigan state to meet the Spartans, 27-7 losers to Great Lakes. Also this week St. Mary's Gaels, sole Pacific coast eleven with a perfect record. jousts with U. C. L. A. which is now back in the running for the Rose Bowl as a result of Oregon State's 7-6 upset of Washington Notre Dame collides with North western: Indiana, assured of at least a tie for the Big Ten title following its 49-0 rout of Minnesota, meets Pittsburgh, loser by 14-0 to Ohio State; the Buckeyes go back into Big Ten competition against Illinois, 47-7 trouncers of Iowa; Purdue opposes Michigan; Texas U. and Texas A. & M. will try and bring order in the South-west Conference by meeting T. C U. and Rice respectively. Texas nipped Baylor 21-14 and Texas A. & M.. halted southern Methodist

Along with Army, Oklahoma Aggies, Holy Cross and St. Mary's, Alabama and Virginia remain the only big time teams left with unblemished records. Indiana and Navy are undefeated but both have been tied. Virginia shellacked Rich mond 45-0 while Alabama was idle Virginia takes on Camp Lee while Alabama meets Vanderbilt.

Put-Put Pulchritude Old Oaken Bucket Battle All-Important To Ohio's

Big Ten Title Opportunity

By HAROLD HARRISON
COLUMBUS, Nov. 12.—The old oaken bucket, the iron-bound bucket, is an important item to Ohio State university's football fortunes today. Heading for their last two games of the season against Illinois and Michigan, the Bucks need, of course, to whip those two old rivals even to have a chance for a second straight Western Conference championship. Even a pair of triumphs won't help the Ohioans unless Purdue's Boilermakers whip Indiana in their annual battle for the old oaken bucket on Nov. 24.

With another capacity crowd of on running plays. They tried three 74,000 expected to see the tilt with plasses but completed none. Pitt fillinois here Saturday, the Bucks were thankful today their opponent once for 15 yards.

Maybe it was the weather—there the only bright spot for the Panwas mud, rain and snow all after- ther fans. Three times in the first noon—but it took a last-period, two touchdown spree to give Ohio a 14 to 0 decision over the Panthers who turned back. have won only two games all sea- The Ohio power took its toll in

The Pitt forward wall threw back as far as the Buck 12-yard line.

the last period, although the Pan-thers had enough fight left to get every Buck challenge until the last period was half over. Then an 80-yard march was climaxed by an 18-yard touchdown gallop by Alex Verdova. A few minutes later Ollie second straight game in which he Cline made the victory safe with a had carried the ball more than 30 63-yard touchdown run. had carried the ball more than 30 times. His average Saturday was

63-yard touchdown run. Ohio gained all of its 359 yards 7.1 yards a try REAL ESTATE REAL ESTATE

HERE IS AN OUTSTANDING FARM AT A PRICE YOU CAN AFFORD TO PAY!!

This 118-acre farm is located about five miles from Salem on an improved road. This farm has been in the same owner's hands for a number of years. The owner's health has failed is the reason for selling this farm. Pasture is watered. Land is in a high state of cultivation. Fruit for home use. There is from 8 to 10 acres of good oak, beech and maple timber.

Is improved with good 9-room house under slate roof. House has electricity, hot water furnace and good cellar. Large bank barn with straw shed under slate roof. Barn is equipped with stanchions for 18 cows. Water at barn. Other necessary out-buildings in excellent condition. Price only

Meet the new Ford for 1946! Big," beautiful, and with more advancenants than most pre-war yearly models . . . It's new in style-with a broader hood and bright, new massive grille . . . There's 10 added horsepower-yet with it you enjoy

new thriftiness in gasoline and oil ... And for a luxurious, level ride, this ear has new multi-leaf springing. Always you travel smoothly,

gently ... You have two great engines to choose from: the V-3, now 100

horsepower-the 90 horsepower Six . . . Yes, everywhere you look you'll find advancements. You're invited to see this new Ford "in person"

at your dealer's now.

are susceptible of solution. Just as Marshal Montgomery says he believes the difficulties in Germany. will be overcome, so may we expect that they will be dispelled in the broader international field.

Perhaps the most explosive subject—not to make a pun—is that of the atomic bomb. Russia has made it plain that she doesn't like the idea of her Allies possessing this terrific weapon while she lacks the "secret". One would expect Russia to make concessions to the Anglo-American Allies when she is satisfied about the bomb.

Thus the conferences on atomic energy in Washington the past energy in Washington the past weekend between President Tru-man and Prime Ministers Attlee of Britain and MacKenzie King of Canada are of incalculable importance. Report has it Mr. Attlee is urging that the atomic discoveries and like developments be shared with other nations, once safeguards have been established. That would be calculated to meet the Russian

Penetrates V Stimulates upper bronchial the chest and back

Warming, soothing relief—grand relief—comes when you rub good old Vicks VapoRub on the throat, chest and back at bedtime. Its penetrating-stimulating action keeps on working for hours. Invites restful sleep. And often by morning most misery of the cold is gone. No wonder most mothers use VapoRub. Try it tonight— home-proved VapoRub.

BOWING IN THE APPROVED Nipponese fashion, Vice Adm. Minoro suno, left, is shown after he faced Chinese army generals who acted as judges in a military trial and found him responsible for the shooting of radioman, third class, Eugene E. Rahmer, right, Long Island, N. Y. The admiral, former commander of the Shanghai area, was sentenced to only two months solitary confinement. The American sailor is shown being questioned by Maj. Houtson Stiff, Denton, Tex., in sick bay aboard ship. (International Soundphoto)

Lady Nearly Choked While Lying In Bed-Due To Stomach Gas

One lady said a few days ago that she used to be afraid to go to bed at night. She was swollen with stomach gas, which always got worse when she went to bed, and the gas would rise up in her throat after she lay down and would nearly choke her. She couldn't lie flat. Had to prop herself up on pillows. Recently this lady got ERB-HELP and now says gas is gone, stomach feels fine, bowels are regular and
